The bold shirt

It is possible to convey power in a suit without having to wear a tie. This depends on your shirt. As a rule, when wearing a shirt with an open jacket and the collar unbuttoned, you will need another accessory, like a power belt, to add a graphic element of strength to the look. As far as the shirt goes, pick a bold, clean or graphic design. Contrast buttons can do the trick, as will a robust button stand or even a concealed one. **GO**

The magazine cover features a close-up of a man with a beard and mustache, wearing a dark three-piece suit, white shirt, and dark tie. He is looking directly at the camera. To his right, the head of a white horse is visible, wearing a black bridle. The background is a soft-focus outdoor setting.

The three-piece
Like a suit of armour, the three-piece fortifies a man's build, conveying a sense of strength and nobility. It also complements his shape superbly, cinching the waist ever so slightly and offering a somewhat imposing silhouette. In black and worn with a white shirt, the three-piece is the ultimate power suit. When choosing a tie, balance out the strength of the suit with something softer, like a fur tie.

The power watch

No style of watch is as essential or more collectible than a simple, black-strapped analogue. It goes with most, if not all suited looks, making it versatile and long-lasting. It is bold without being flashy, which is particularly useful in a work environment where you want to convey strength without arrogance. For aspiring collectors, entry level and investment pieces include a number of brands and styles.

Platinum club

While grey might be considered one of the staler or more conventional colours in suiting, it is actually one of the most fortifying shades. It has a particular lustre that conveys an air of maturity, wisdom and rationality. By pairing a grey suit with a similarly coloured tie with a slight metallic sheen, the man gains something of an impenetrable strength, but without being cold and unapproachable. The sheen also adds a sense of richness.

The waistcoat

Though we understand the three-piece to be a domineering style, consider that it can be broken up and worn as a waistcoat and trouser combination. While it is considerably less decorous than a full three-piece, it is still formal and makes for a respectable wardrobe option for young men who need to move around in the office. It is also a great option for accentuating your physical assets, which – whether we like to admit it or not – play an essential role in the psychology of the competitive work environment.
