## LAYERING

Layering is not reserved for fall winter season only. Beyond its functional role, combining various colors and textures will add a dose of individuality to your look. The most important rule is - all of the clothes have got to look good as a package, as well as standalone items.

## BIKER JACKET

The biker jacket is a timeless classic that will always be in fashion. Just remember that simplicity and a good fit are the rules to nail this style. Keep it safe with a white top and denim jeans. Throw some boots in to the mix for a biker look, or pair it with trainers for more casual look.
