BOGNER
Presents:
**The ThinDown
Innovation**

Wenn es um Winterjacken geht, sind Daunen nach wie vor das Maß der Dinge. Allerdings besteht beim herkömmlichen System die Gefahr von Kältebrücken zwischen den federgefüllten Kammern. Und bekanntlich führen die dicken Daunenkissen zu einer ausladenden Silhouette. Also fahndeten die Designer von BOGNER nach einem Weg, um den Komfort der Daune mit schlankeren Konturen zu verbinden. Sie wurden bei der ThinDown-Technologie aus Italien fündig. In einem aufwendigen Verfahren werden dabei echte Daunen zu einer Vlies-Meterware verbunden. So kann ThinDown jede Form annehmen, genau wie synthetische Hohlfasertextilien – nur eben mit den natürlichen Eigenschaften der Daune. Das Ergebnis sind BOGNER Daunenjacken mit purer athletischer Silhouette, denen man den Beschützerinstinkt nicht gleich ansieht. Innovative Form mit klassischen inneren Werten!

Duomo di Siracusa

Arrive in Siracusa and your jaw drops – the beauty has much to do with the homogeneity of the architecture, the pale local stone and the visual harmonies of scale of this ancient city. Built on an island linked by three bridges, the old city has as its heart the great piazza in front of the cathedral, a location for Giuseppe Tornatore's movie *Malèna* (2000).
